FOR IMMEDIATE RELEASE

DYNAMIC CARD SOLUTIONS EXPERIENCES SUBSTANTIAL GROWTH FOR FIFTH CONSECUTIVE YEAR

Instant issuance continues to be a top priority for financial institutions

Englewood, Colo.—(Jan. 30, 2007)— Following four years of double-digit revenue growth, Dynamic Card Solutions (DCS), developer of CardWizard®, the leading instant issue and PIN selection software application for financial institutions, today announced its 2006 results, which includes a 45 percent increase in revenue over 2005.

The company's growth came from 77 new financial institutions selecting DCS's CardWizard instant issue technology; plus, numerous existing customers expanded their deployments of CardWizard by increasing the number of branches in which they offer instant issue and PIN selection. In 2006, the DCS customer base grew to more than 300 financial institutions with installations at thousands of branches.

"Last year, our success was attributable to the number of existing successful installations plus increasing awareness to other financial institutions and their customers on the benefits of instant issuance," said Ron Zanotti, vice president of sales and marketing for DCS. "Looking ahead, we anticipate revenue will continue to surge as more and more financial institutions learn about the benefits."

DCS' CardWizard® software provides an easy and secure method to instantly issue and PIN plastic debit and credit cards. CardWizard has proven integration interfaces to a large number of account, card and network processing platforms which automate the instant issue and instant activation process. Through a robust, user-friendly administration component, CardWizard provides full reporting, card inventory management, proven security and monitoring features required for instant issue. Additionally, DCS provides supplemental solutions, such as the SuperCAT® Encoder, PIN Wizard®, and ID Wizard®, for customer-selected PIN and re-PIN processes that complement its CardWizard integrated platform.

About Dynamic Card Solutions

Founded in 1996 and a wholly owned subsidiary of Dynamic Solutions International, Dynamic Card Solutions is an innovative developer of instant issuance and PIN selection solutions for banks, credit unions and retailers. Dynamic Card Solutions is the leading instant issuance provider for Visa® and MasterCard® debit cards in the United States. The company offers fully integrated solutions that allow financial institutions and retailers to quickly and securely issue ATM, debit and credit cards instantly at branch or store locations. Issuing cards instantly increases customer service, card sales and revenue, and eliminates current card issuance costs. Dynamic Card Solutions' system includes a user-friendly administration component that provides full reporting, card inventory and more. All solutions utilize DES encryption and are compliant with recommended security procedures for instant issuance. For additional information, call 1-800-641-5215 or visit the Dynamic Card Solutions Web site at www.instantissuance.com.
