Dynamic Card Solutions Partners with Mountain America Credit Union to Offer Instant Issuance Throughout Utah

Englewood, Colo.—(May 22, 2006)—Dynamic Card Solutions (DCS), developer of CardWizard®, the leading instant issue and PIN selection software application for financial institutions, today announced a partnership with Mountain America Credit Union to offer instant issuance throughout Utah.

Based in Salt Lake City, Mountain America Credit Union selected DCS to implement a program that instantly issues Visa® debit cards using DCS' CardWizard® software in conjunction with Datacard's 150i branch-level embosser. For re-pinning of its cards, Mountain America also selected DCS' SuperCAT® encoders which fully integrate into the CardWizard system. With the help of DCS, Mountain America Credit Union made the program available to 25 of its branches throughout Utah, with plans to continue to implement DCS' instant issue technology in the remaining 23 branches by the end of 2006.

“Partnering with DCS to offer an instant issue debit card program allows Mountain America to offer a unique and unmatched service to our members,” said Tony Rasmussen, senior vice president eServices of Mountain America. “We are pleased with how well the system has integrated into our host and network environments making the instant issue and re-PIN process easy, fast, reliable and secure. Due to the success of this offering, we look forward to adding more DCS instant issue systems as we open new branches throughout the state.”

Through the instant issue debit card program, Mountain America delivers cards on-the-spot to its members with the option to select from a variety of card stock backgrounds for personalized cards. By offering debit cards instantly at the branch, the credit union eliminates the cost, delay and risks associated with the conventional method of sending newly issued cards through the mail. Also, when a customer needs an emergency replacement or “rush” card, they can be quickly and conveniently serviced at any branch location. In addition, instant issue provides the ability to deliver beneficial debit card education to members at the branch increasing member acceptance and card usage.

“Mountain America fully understands all of the business benefits they receive when great service and convenience is provided,” said Ron Zanotti, vice president sales and marketing for DCS. “With on-the-spot issuance and the option to choose from multiple card backgrounds, Mountain America has differentiated itself within the market and continues to expand upon its success as one of the largest, most service-oriented credit unions in Utah.”

DCS' CardWizard instant issue software provides an easy and secure method to instantly issue and re-PIN cards, along with a user-friendly administration component that allows for full reporting, card inventory management, robust security and monitoring features required for instant issue. Additionally, DCS provides solutions for customer-selected PIN and re-PIN processes that compliment its CardWizard integrated instant issuance platform.

About Mountain America Credit Union

With roots dating back to the 1930's, Mountain America Credit Union is a tradition for many members. The traditions continue today as Mountain America offers financial products and services with added value, convenience, innovation and excellent customer service. One of Utah's largest credit unions, Mountain America Credit Union has more than \$1.8 billion in assets and more than 219,000 members. For more information, please visit www.macu.com.

About Dynamic Card Solutions

Founded in 1996 and a wholly owned subsidiary of Dynamic Solutions International, Dynamic Card Solutions is an innovative developer of instant issuance and PIN selection solutions for banks, credit unions and retailers. Dynamic Card Solutions is the leading instant issuance provider for Visa® and MasterCard® debit cards in the United States. The company offers fully integrated solutions that allow financial institutions and retailers to quickly and securely issue ATM, debit and credit cards instantly at branch or store locations. Issuing cards instantly increases customer service, card sales and revenue, and eliminates current card issuance costs. Dynamic Card Solutions' system includes a user-friendly administration component that does full reporting, card inventory and more. All solutions utilize DES encryption and are compliant with recommended security procedures for instant issuance.
