**Dynamic Solutions International Named One of Colorado's Fastest Growing Technology Companies in Deloitte's Fast 50 Program**  
*Card and storage divisions lead company's growth*

Englewood, Colo.—(October 6, 2006)— For the second consecutive year, Deloitte names Dynamic Solutions International (DSI) to the prestigious Colorado Technology Fast 50 Program, a ranking of the 50 fastest growing technology, media, telecommunications and life sciences companies in Colorado. Deloitte & Touche USA LLP, one of the nation's leading professional services organizations compiles the rankings based on the percentage revenue growth over five years from 2001–2005.

Both the storage and card divisions led DSI's growth. The storage division, also known as Dynamic Solutions International, is a leading provider of data storage solutions and comprehensive professional services for businesses and enterprises. Dynamic Card Solutions (DCS) is the card division of DSI and is the leading instant issue and PIN selection software application for financial institutions.

"With strong relationships across the financial services industry, as well as here in Colorado, both the storage and card divisions have had tremendous success during the past five years," said Steve Suttman, president of DSI. "As we continue to grow, we maintain our focus on providing innovative products and services coupled with the unparalleled customer service that our customers have come to expect from us."

DSI's increase in revenue from 2001 to 2005 resulted in a 33rd place ranking in the Colorado Technology Fast 50. The average increase in revenue among companies who made the Technology Fast 50 for this region was 615 percent.

"Sustaining high-revenue growth over five years is an exceptional accomplishment," said Kurt J. Randall, Colorado technology, media and telecommunications leader for Deloitte Tax LLP. "We commend Dynamic Solutions International for making the commitment to technology and delivering on the promise of market longevity. We are proud to honor DSI as a Deloitte Technology Fast 50 winner."

To qualify for the Colorado Technology Fast 50, companies must have had operating revenues of at least \$50,000 in 2001 and \$5,000,000 in 2005, be headquartered in Colorado, and be a company that owns proprietary technology or proprietary intellectual property that contributes to a significant portion of the company's operating revenues; or devotes a significant proportion of revenues to the research and development of technology. Using other companies' technology or intellectual property in a unique way does not qualify.
