**DYNAMIC CARD SOLUTIONS PROVIDES PAY LINX WITH INSTANT ISSUE PRE-PAID CARDS FOR GOVERNMENT INSTITUTIONS THROUGHOUT CANADA**

Englewood, Colo.— Oct. 18, 2006 —Dynamic Card Solutions (DCS), developer of CardWizard®, the leading instant issue and PIN selection software application for financial institutions, today announced that Pay Linx, a financial solutions corporation offering contemporary payment processing products, is using DCS' CardWizard technology to provide government institutions with the ability to instantly issue pre-paid debit cards.

Replacing the timely process of issuing checks for social assistance, many Canadian governments, including the Government of Alberta, are working with Pay Linx to instantly issue pre-paid cards. In turn, government institutions are reporting higher cardholder satisfaction, a decrease in labor hours (a result of eliminating the need for multiple sessions with the customer) and improved process times.

DCS' CardWizard instant issue software, used by all Pay Linx customers, provides an easy and secure method to instantly issue cards, along with a user-friendly administration component that allows for full reporting, card inventory management and robust security required for instant issue. Additionally, DCS enables card owners to select their own PIN, eliminating delays and allowing for immediate use.

"We needed a solution that could comply with the Canadian regulatory requirements surrounding financial transactions, which are much stricter than in the United States," said Ian McNeill, president and CEO, Pay Linx Corporation. "Not only does DCS easily meet the Canadian regulations, but they provide our customers with efficient, secure technology that in-turn, increases the satisfaction levels of the card recipient. With CardWizard, everyone wins."

Additionally, DCS is developing new software to meet the demands of Pay Linx costumers for a user-selected paper-based pinning solution. The new product should be available in December.

**About Pay Linx Corporation**

Pay Linx is a private corporation and a reporting issuer soon to be listed on the Toronto Stock Venture Exchange (TSVX.). The corporation was formed in 2005, with the goal of streamlining payment processing for employing a new banking platform employing eFunding and debit cards for serving government, the rapidly growing mobile and temporary workforce and large corporations. For additional information, call Ian McNeill 1-877-423-3196, or visit the Pay Linx Web site at [www.paylinx.ca](http://www.paylinx.ca)

**About Dynamic Card Solutions**

Founded in 1996 and a wholly owned subsidiary of Dynamic Solutions International, Dynamic Card Solutions is an innovative developer of instant issuance and PIN selection solutions for banks, credit unions and retailers. Dynamic Card Solutions is the leading instant issuance provider for Visa® and MasterCard® debit cards in the United States. The company offers fully integrated solutions that allow financial institutions and retailers to quickly and securely issue ATM, debit and credit cards instantly at branch or store locations. Issuing cards instantly increases customer service, card sales and revenue, and eliminates current card issuance costs. Dynamic Card Solutions' system includes a user-friendly administration component that does full reporting, card inventory and more. All solutions utilize DES encryption and are compliant with

recommended security procedures for instant issuance. For additional information, call 1-800-641-5215, or visit the Dynamic Card Solutions Web site at [www.cardwizard-dsi.com](http://www.cardwizard-dsi.com).
