Dallas Telco Federal Credit Union and Dynamic Card Solutions Partner for Instant Issuance in Dallas

Englewood, Colo.—(Nov. 7, 2005)—Dynamic Card Solutions (DCS), developer of CardWizard®, the leading instant issue and PIN selection software application for financial institutions, today announced that Dallas Telco Federal Credit Union (DTFCU) has successfully implemented Dynamic Card Solutions' instant issue technology for its five Dallas locations.

After careful evaluation, DTFCU chose to replace its former instant issue and re-PIN system with DCS' technology. The system was selected to instantly issue and re-PIN ATM, debit and credit cards using DCS CardWizard software, SuperCAT® encoder for re-pinning, and DataCard's 150i embosser. With professional installation and training help from DCS, the credit union easily rolled out the instant issue system to all five Dallas locations.

“Because we were replacing an instant issue program from a different vendor, we looked at systems that could easily integrate with our existing network and be compatible with our current embosser,” said Gary Doan, senior vice president and CIO for Dallas Telco Federal Credit Union. “Dynamic Card Solutions' CardWizard software came to the top of our list because it would easily integrate with all of our network and security requirements.”

“Things have run very smoothly since the installation,” said Doan. “The reporting and security is much better and our branch staff is thrilled at how easy and reliable things are now. The system is very straightforward and has delivered a flawless performance.”

DCS' CardWizard instant issue software provides an easy and secure method to instant issue and re-PIN cards along with a very robust, user-friendly administration component that gives full reporting, card inventory management, robust security and monitoring features required for instant issue. Additionally, DCS provides solutions for customer selected PIN and re-PIN processes that compliment its CardWizard integrated instant issuance platform.

About Dynamic Card Solutions

Founded in 1996 and a wholly owned subsidiary of Dynamic Solutions International, Dynamic Card Solutions is an innovative developer of instant issuance and PIN selection solutions for banks, credit unions and retailers. Dynamic Card Solutions is the leading instant issuance provider for Visa® and MasterCard® debit cards in the United States. The company offers fully integrated solutions that allow financial institutions and retailers to quickly and securely issue ATM, debit and credit cards instantly at branch or store locations. Issuing cards instantly increases customer service, card sales and revenue,

and eliminates current card issuance costs. Dynamic Card Solutions' system includes a user-friendly administration component that does full reporting, card inventory and more. All solutions utilize DES encryption and are compliant with recommended security procedures for instant issuance. For additional information, call 1-800-641-5215, or visit the Dynamic Card Solutions Web site at www.cardwizard-dsi.com.

About Dallas Teleco Federal Credit Union

Opened in 1937, Dallas Telco Federal Credit Union -- like all credit unions -- is a not-for-profit financial institution that is owned by its members and offers them competitive rates on savings and investments and great deals on loans. The credit union currently serves over 28,000 people at its five branch locations in Dallas.
